

GU UNI-JET D Tilt & Turn Hardware Range

401-1600mm MIN/MAX Sash rebate width

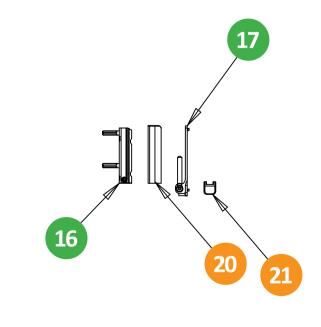

- timber windows
- Precision-engineered suitable for manual or automated fabrication
- Single universal central locking system can be adapted to suit all applications
- High-security version available by special order
- Fewer components results in faster fabrication and reduced stock-holding
- 'Cleverle' mushroom cam automatically compensates for clearance tolerances and is easily adjusted with a Torx key
- Smart, space-saving packaging

- Super-smooth operation even on large or reinforced windows
- Sash lifter reduces component wear and abuse while ensuring an effortless close action
- Integrated anti-slam device keeps sash in tilt position even in windy conditions
- GU FerGuard silver finish: high-grade corrosion protection salt spray tested to 576 hours
- 10-year mechanical guarantee

TILT BEFORE TURN - GU UNI-JET SC (CONCEALED)

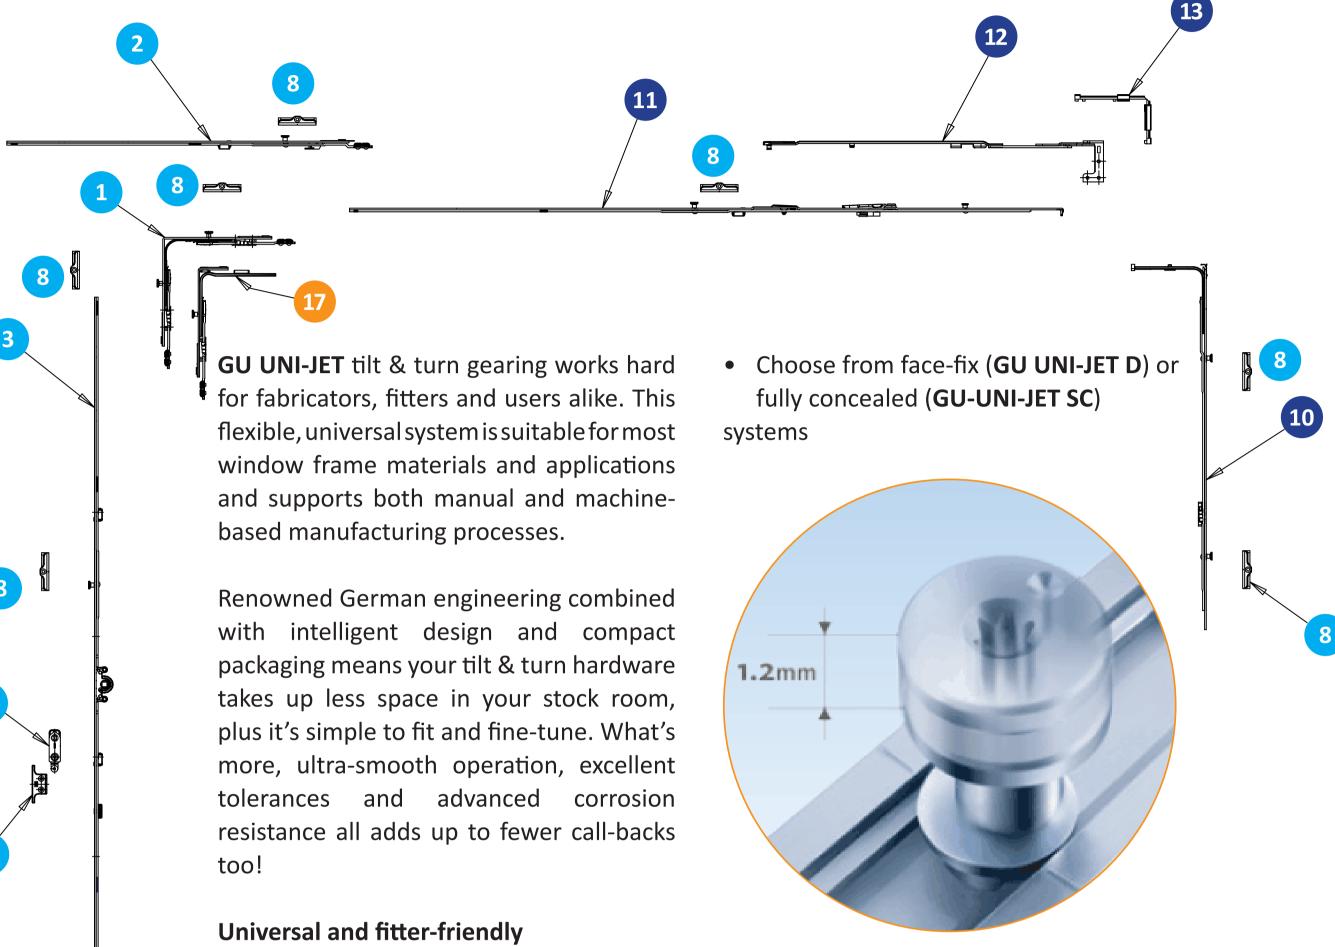

GU UNI-JET SC Tilt & Turn Hardware Range

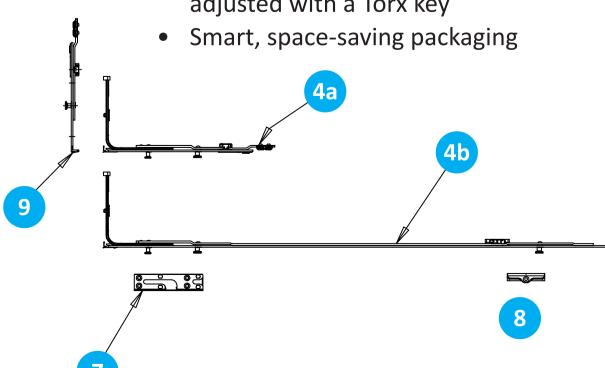

420-1400mm MIN/MAX Sash rebate width

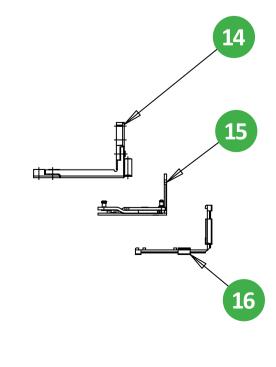

- Options for PVCu, aluminium and timber windows
- Precision-engineered suitable for manual or automated fabrication
- Single universal central locking system can be adapted to suit all applications
- High-security version available by special order
- Fewer components results in faster fabrication and reduced stock-holding
- 'Cleverle' mushroom cam automatically compensates for clearance tolerances and is easily adjusted with a Torx key

Enduring practicality

- Super-smooth operation even on large or reinforced windows
- Sash lifter reduces component wear and abuse while ensuring an effortless close action
- Integrated anti-slam device keeps sash in tilt position even in windy conditions
- GU FerGuard silver finish: high-grade corrosion protection salt spray tested to 576 hours
- 10-year mechanical guarantee
