MADE TO MATCH

Suited Furniture Collection

We're keeping hardware sourcing short and 'suite'

At Window Ware, we're on a mission to make our fabricators' lives that little bit easier!

So, for your convenience, in this brochure, we've brought together a carefully chosen collection of suited door and window furniture essentials – all available in **coordinated finishes** and classic shapes that are **guaranteed to work together beautifully** and help you achieve consistency in design, construction, and appearance across your finished product line. This means, when your customers want matching doors and windows, you can always deliver **without** having to shop around!

Stand-out service designed around you

We don't just fast-track you to a **great choice of matching hardware** for your doors and windows! We make ordering quick, flexible, and super easy too! So, whether you prefer to place your order online through our website, talk your order through with our friendly sales team or simply email it straight over to us at sales@windowware.co.uk – we're ready to help! Whatever works for you, works for us too!

Flexible shipping options, dependable deliveries and **no minimum order quantities** all help to ensure you get precisely the hardware you need, just when you need it, helping to keep your production lines running smoothly and your business right on track.

And if you have any questions about your order at any stage, or need a little advice before you buy, our team of hardware experts and product specialists have all the answers. Don't hesitate to get in touch!

Key features:

- The fixing kits for the Supa™ stainless steel door pull handle range come in pairs
- Choose from back-to-back, through or concealed.

How many fixing kits do you need?

- 400mm - 1200mm pull bars have 2 fixing points (so you'll need one fixing kit)
- 1400mm - 1800mm pull bars have 3 fixing points (so you'll need two fixing kits)
- Offset back-to-back fixing kit suits door thicknesses of 44-56mm
- Inline back-to-back fixing kit suits door thicknesses of 64-76mm
