EQUIPPED TO GET THE JOB DONE RIGHT

Here at Window Ware, we're pretty particular about the products we stock. That's not surprising when you know that some of our colleagues are either ex-fabricators or ex-fitters, and many have worked in the window and door industry for years. This has given them a unique appreciation for what makes a great hand tool. Rest assured that only products they're happy to use themselves or recommend to others make the grade!

This practical insight has been instrumental in putting together our newest collection of professional-grade tools from Kendo. Featuring toolbox essentials such as pliers, scrapers, hammers and pry bars, each product has been carefully selected with glazing fitters and installers in mind. Having said that, you could happily expect to find any of these items in the tool kits of general tradespeople and DIYers too.

If you're looking for durable, competitively-priced tools you can trust to help you work safely, efficiently and turn out first-class results for every project, then Kendo is a great match.

VDE Side Cutters

PRODUCT INFORMATION

Stay safe when working on live equipment with these VDE certified side cutters from Kendo, which have been tested to 1000V and certified to EN60900. Made from hard chrome-vanadium steel, these wire cutters stay sharper and rust-resistant for longer.

- 1000V insulated
- VDE certified to EN60900
- Durable chrome-vanadium steel
- Nickel iron plated
- Non-slip comfort grip handle

Comfort-grip Scraper

PRODUCT INFORMATION

Here's a decorating and DIY staple for your toolbox! The hard yet flexible steel blade and soft, non-slip handle of this scraper knife will make light, quick work of stripping wall paper, scraping walls or applying filler.

- Hardened, flexible ground steel blade
- Choose from 50mm and 80mm blade widths
- Ergonomic comfort-grip TPR handle

PART NUMBERS

Wood Chisels

PRODUCT INFORMATION

Whether you need to chisel out a door lock, create a timber joint or clean off the corners of a weld joint on a window, this resilient wood chisel won't let you down. With a super-hard blade that is slow to blunt or rust and an ergonomic handle, count on efficient cutting with excellent comfort, time after time.

- Strong, hardened annealed steel bevel-edge blade
- Cushioned grip handle
- Steel striking end cap on handle for extra cutting force
- Available blade widths: 6, 12, 19 & 25mm
- Not sold to anyone under the age of 18

Snap-Off Blade Knife

PRODUCT INFORMATION

You'll be able to tackle most general-purpose cutting tasks with this utility knife from Kendo. The knife delivers tough, long-lasting cutting performance and whenever the blade becomes dull, simply snap-off the end to reveal a fresh, new razor-sharp cutting edge ready for the next project.

- 18mm blade width
- Soft-grip, anti-slip handle
- Quick-change blade cartridge
- Not sold to anyone under the age of 18

Folding Utility Knife includes 5 blades

PRODUCT INFORMATION

Thanks to the compact design and carry case, this folding utility knife is small enough to be easily and safely stored away in your toolbox or toolbelt when not in use. It's a multi-purpose cutting tool that comes with 5 spare blades to see you through numerous trimming tasks.

- Locking action secures blade in open position during use
- Folds down to 90mm for compact storage in closed position
- Quick-release lever for fast, easy blade change
- Supplied with 5 spare blades and storage case
- Not sold to anyone under the age of 18

Club Hammer

PRODUCT INFORMATION

This solid, well-built club hammer from Kendo is perfectly suited to a range of light demolition work and dismantling jobs. It's weighty enough to wield on its own but can equally be used with a chisel for more precise cutting of stone or metal.

- Rust-resistant black painted drop-forged carbon steel head
- Polished striking face
- Reinforced fibreglass shaft
- Ergonomic, non-slip rubberised handle for improved grip and shock absorption

PART NUMBERS

2lb	4lb	BOX QTY.
HAM41001	HAM41002	6

Claw Hammer

PRODUCT INFORMATION

This strong, yet light-weight claw hammer would make a great toolbox staple for any DIY enthusiast or tradesperson – just the job for hammering in or removing nails from wood.

- Drop-forged 16oz carbon steel head with nail puller
- Strong but light-weight tubular shaft for easy lifting
- Ergonomic soft-grip TPR handle
- Hardened and tempered

PART NUMBERS

16oz	BOX QTY.
HAM41016A	1

One-piece Claw Hammer

PRODUCT INFORMATION

If you're looking for a solid, robust hammer that won't break off or snap when you apply extra hitting or levering force, then this heavy-duty hammer from Kendo definitely hits the mark. Its strong one-piece steel construction and soft, non-slip handle make for a powerful, controlled strike.

- 16oz head with nail puller
- Drop-forged one-piece steel construction delivers strength and durability
- Ergonomic soft-grip TPR handle
- Hardened and tempered

PART NUMBERS

16oz	BOX QTY.
HAM41016	1

Flat Pry Bar

PRODUCT INFORMATION

Whatever you need to prise open or apart, this professional-grade prying bar delivers just the right amount of controlled leverage to get the job done. The thin blade will fit into even narrow gaps to lift floor boards easily and take out windows cleanly with minimal damage to brickwork.

- Length: 375mm
- Made from hardened carbon steel
- Integrated nail puller
- Polish tips reduce the risk of leaving marks

PART NUMBERS

380mm	BOX QTY.
FPB41450	10

Wrecking Bars

PRODUCT INFORMATION

As the name suggests, this wrecking bar or crowbar will take on all kinds of general demolition work with gusto! The traditional hexagonal steel shank and drop-forged alloy steel construction offer ultimate robustness and prising potential.

- Nail puller claw end and chisel end
- Drop-forged and ground from hexagonal steel for ultimate strength and durability
- Polished tips
- Two lengths available: 600 & 900mm

PART NUMBERS

600mm	900mm	BOX QTY.

3 PCS Chalk Line Reel Set

KENDO
Your Professional Partner

PRODUCT INFORMATION

Whenever you need to mark and obtain levels, a chalk line is a quick, easy and reliable method. For example, it's a great way to achieve a straight fall on guttering and ensure the brackets are perfectly aligned for optimum drainage to the downpipe.

- Highly durable reel and chalk for professional use
- Strong plastic casing
- Claw and hook end for a secure hold
- Line length: 30m

PART NUMBERS

PART CODE	BOX QTY.
CLK41000	10

Adjustable Bevel

PRODUCT INFORMATION

This sliding bevel lets you accurately measure and copy angles. Use the adjustable wing nut to loosen and move the blade until it follows the line of the angle exactly, then tighten the nut to hold the correct angle and transfer it to whatever construction project you're working on.

- Polished hardwood stock
- Solid brass end cap
- Adjustable wing nut to change and fix the angle easily
- Blued steel blade for rust protection

PART NUMBERS

200mm	BOX QTY.
BVP41200	18

Combination Square

PRODUCT INFORMATION

This combination square works as a try square to measure right angles and a mitre square to mark out 45° angles. It can also be used to measure depth or work out the centre of a circular object. It's an essential piece of kit for carpenters, joiners, stonemasons, metal workers and more, and for fabricators, it's a sure-fire way to keep door and window frames square.

- Made from rust-resistant stainless steel
- Die-cast stock
- Permanent etched graduations
- Imperial and metric measurements

PART NUMBERS

300mm	BOX QTY.
SQC41300	10

Steel Framing Square

PRODUCT INFORMATION

This L-square or right-angle ruler from Kendo is a handy piece of kit when laying out and cutting rafters or making door and window frames. It'll ensure the end product is always completely square. Made from carbon steel with etched imperial and metric measurements, this particular L-square is durable and designed to last.

- Carbon steel construction
- Permanent etched graduations
- Displays imperial and metric units
- Dimensions: 400 x 600mm

PART NUMBERS

400 x 600mm	BOX QTY.
SFS41000	1

Aluminium Level

PRODUCT INFORMATION

Get your horizontal and vertical lines dead on every time with this professional, extra robust spirit level from Kendo – no more sloping shelves or leaning uprights. You'll find this 3-vial bubble level invaluable for all kinds of DIY and building projects.

- Three vials at 45°, 90° and 180° angles
- Rust-free, lightweight but strong powder-coated aluminium i-beam section
- Accuracy 1.0mm/m
- Drop-proof end guards
- Hanging hooks for easy storage
- Choose from two lengths: 600 and 1200mm

PART NUMBERS

600mm	1200mm	BOX QTY.
LEV40600	LEV41200	1

Tool Box with Organizers

PRODUCT INFORMATION

This professional, robust tool box offers plenty of storage space for all your essential tools, including long or large equipment like trowels, pry bars, wrenches and saws. Sturdy enough to withstand daily use and abuse.

- One removable plastic organiser tray
- Sturdy plastic construction with generous metal handle for comfortable carrying
- Storage compartment in lid for safely stowing small parts like screws and nails etc.
- Heavy-duty sturdy metal latches
- Dimensions: 656 x 285 x 270mm

PART NUMBERS

PART CODE	BOX QTY.
