

MACO Flush Sash Systems

Flush Sash Extensions for MSPAG Telescopic and MACH II Shootbolt Espagnolettes

These new extensions from MACO have been specifically developed to accommodate increasingly popular flush casements for clean, square lines that look great on traditional and contemporary properties alike. **Unlike traditional flush sash systems, these new extensions have a second double mushroom cam on the faceplate which allows an aerating night vent position.** They work with MACO MACH II Shootbolt Espagnolettes or MACO Telescopic Shootbolt Espagnolettes, come with a 10-year mechanical guarantee and are PAS 24: 2016 compliant.

Key features and benefits:

- Second double mushroom cam delivers **night vent facility** - a big improvement from single night vent products
- Available with 7.7 or 9.0mm mushroom cams
- All screw fixings are located on one face for **simpler, faster fabrication** - saving you valuable time
- PAS24: 2016 certified for **enhanced security performance**
- Adjustable throw shootbolts - giving you increased flexibility
- Adjustable mushroom cam in the locked position
- **Durable** - endurance tested to Grade 5, 25,000 cycles EN 13126 Part 4
- **Long-lasting corrosion-resistant** silver-look finish tested to 480 hours Class 5 EN 1670
- 10-year mechanical guarantee for **trouble-free operation**
