

# Cotswold Sinidex Security Window Lock

10  
YEAR GUARANTEE

**WINDOW  
WARE**

*We've got it*

Now fabricators can quickly, easily and cost-effectively upgrade their product offering to provide their customers with high-security SBD-approved window hardware as standard thanks to this competitively-priced security window lock from Cotswold Architectural Products. Clever floating mushroom technology and self-locating keeps help to maintain trouble-free operation, as well as ensure optimal security- and weather-sealing performance even if the sash drops. That means fewer call backs and happier homeowners!

## Key features

- Floating mushroom technology delivers increased tolerances to reduce gearbox wear and cope with sash drop up to 6.5mm
- Self-locating keeps guide the mushroom cams into perfect position every time for effortless operation and a secure seal
- Fully compression adjustable security cams
- Simple routing preparation – the Sinidex lock fits a standard espag rout
- Ever expanding range of profile-related handed security keeps with night vent facility
- Rods are ready marked to aid keep alignment during fabrication
- Suitable for PVCu windows

## Specifications:

- 16mm plated mild steel faceplate
- 20 or 22mm back sets
- 7.7 or 9mm mushroom cams
- Compression adjustment  $\pm 1$ mm
- Available in various sizes from 280 to 1150mm

## Guarantees & Certifications

- Secured By Design accredited to protect homes against crime
- PAS 24 accredited security performance
- Tested to over 30,000 cycles with a 10-year mechanical guarantee for long service life
- Corrosion resistant to EN1670: Grade 4
