If you need to fill cracks and gaps in walls, plaster board and brick work, around door- and window frames and window sills, then reXon 121 acrylic is the right product for the job. This high-quality caulk is very easy to work with and smooth to give a superior finish that can be painted once dry. It can be used indoors and outdoors but should not be used in areas that are constantly wet. 121 acrylic adheres to brick, concrete (cellular), masonry, plaster, wood, ceramic tile, metals and rigid PVCu.

- Can be painted perfectly
- Easy to work
- Excellent adhesion without primer
- Remains watertight after polymerisation complete
- Resistant to UV, weather, moisture and temperatures between -20°C to + 100°C
- Suitable for use indoors and outdoors
- Elastoplastic permanently (max 12.5% elasticity)
- Does not contain phthalates
- Application temperature: between 5°C & 40°C
- Drying time: Film formed after 70 minutes
- Completely dry after approx. 7 days
- 310ml tube
