

# reXon 351 PU Gun Foam Cleaner

## PRODUCT INFORMATION

ReXon 351 cleaner can be used to remove every last trace of freshly-applied insulation foam, as well thoroughly clean the foam gun, valve and trigger of any residual foam product. Cleaning must always be done before the foam is dry, otherwise it can only be removed mechanically.

- Tip: before use, test in an inconspicuous place to avoid damage of delicate surfaces.
- Do not dilute
- 500ml can

### USE | CLEAN | REPEAT

To keep your foam gun in good working order, clean regularly.
