

# Steel Framing Square

**KENDO**  
Your Professional Partner

## PRODUCT INFORMATION

This L-square or right-angle ruler from Kendo is a handy piece of kit when laying out and cutting rafters or making door and window frames. It'll ensure the end product is always completely square. Made from carbon steel with etched imperial and metric measurements, this particular L-square is durable and designed to last.

- Carbon steel construction
- Permanent etched graduations
- Displays imperial and metric units
- Dimensions: 400 x 600mm
