Manual Window Controls

ROTARY JUNCTION BOX

Part of the Highline manual window controls range. This junction box connects drivers for satellite openers to the main conduit control system allowing multiple openers to be operated from a single winder. Available white, grey and black.

Colour	Part Code	Box Qty
White RAL9010	THL51000	1
Grey RAL9006	THL51001	1
Black RAL9005	THL51005	1

CABLE CONDUIT 3 METRE

Works with the Highline manual window controls range. This plastic-covered metal tube protects the control cable that connects a window operator to a chain opener. It features a nylon lining for smooth operation and longer life. Supplied in 3-metre lengths. Available in white, grey and black finish.

Colour	Size	Part Code	Box Qty
White RAL9010	3m	THL40000	20
Grey RAL9006	3m	THL40001	20
Black RAL9005	3m	THL40005	20

CONDUIT END CAP

Works with the Highline manual window controls range. This moulded plastic conduit plug seals off the end of the conduit run which houses spent travel for a neat, fully enclosed finish. Available in white, grey and black finish.

Colour	Part Code	Box Qty
White RAL9010	THL83000	100
Grey RAL9006	THL83001	100
Black RAL9005	THL83005	100
