Kubu

Be sure it's secure.

About Kubu

How many times have you thought... Have I locked my door? We've all been there!

With Kubu you'll never have to worry if your doors are unlocked again.

Kubu uses smart and simple technology to monitor your locks in real-time. You'll be able to check the status of your door no matter where you are, at any time of the day, right from the Kubu app on your phone.

With Kubu, say goodbye to uncertainty and hello to peace-of-mind.

Be sure it's secure

What does the Kubu App do?

It lets you see the status of your door (locked/unlocked)

Get notifications with every turn of the key.

From any place in the world when connected to the internet.

You can schedule notifications when you want.

At any time, day or night.

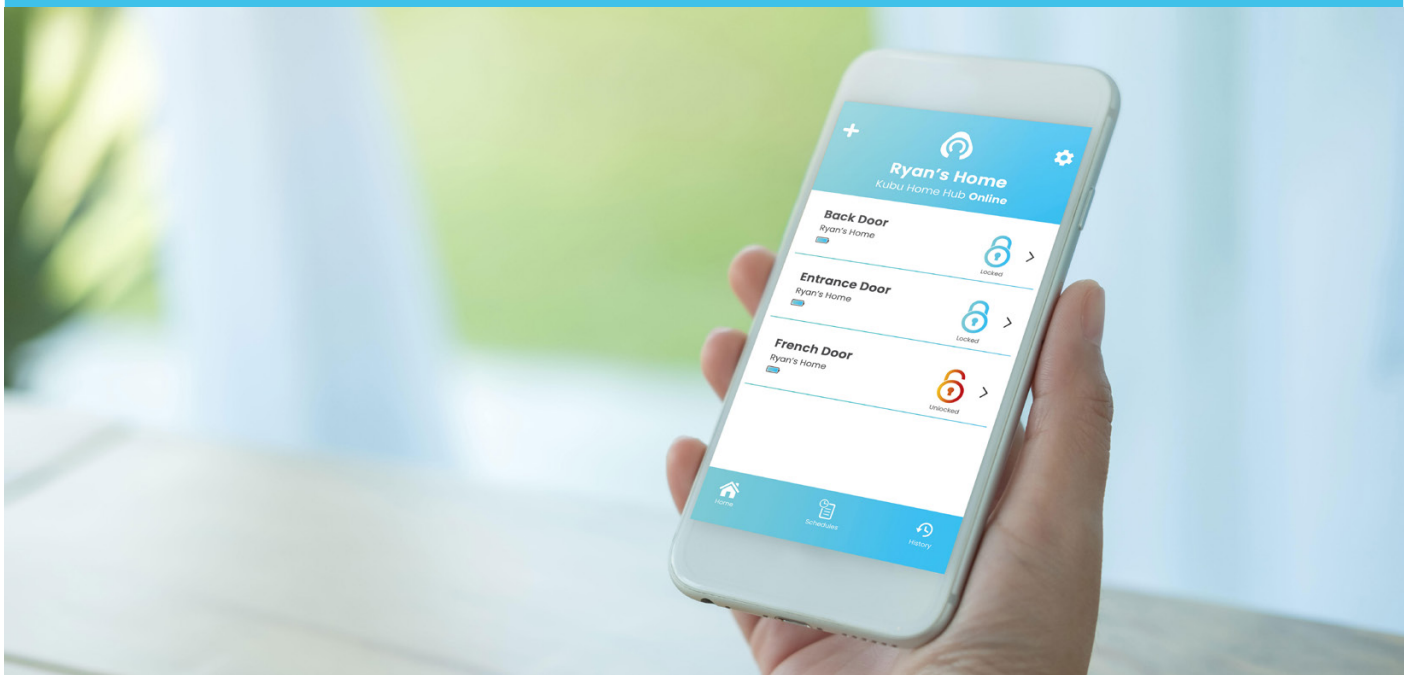

It shows the history of your doors.

On all the doors in your home.

You can share your door with family and friends.

On all the homes that you look after.

Its perimeter feature helps to prevent you from leaving your home unlocked.

Kubu Starter Kit

You will need doors with the Kubu Lock installed before you can purchase your Kubu Home Hub and Door Module, and download the app.

Don't have Kubu Locks on your doors? Not to worry, we've got a network of Kubu Registered Installers who will fit the highest quality doors for you. Simply get a free quote online at:

www.kubu-home.com

Once you've got your doors fitted, you can buy your Starter Kit on the Kubu website.

In the Kubu Starter Kit, you will receive one Home Hub, one door module, batteries for your door module and a plug unit.

You will also get a quick start set up guide with step-by-step instructions on how to activate your Kubu.

Installation & Setup

Kubu is quick and easy to set up, taking under 15 minutes

Purchase your Kubu Home Hub and Door Module online

Plug in your Kubu Home Hub and connect to your wi-fi

Download the Kubu App and set up your doors

Fit the Door Module into your existing Kubu Equipped Door Lock

Receive real-time notifications

With Kubu, you will always know the status of your door, whether it's locked or unlocked. No matter where you are, you can receive notifications right from the Kubu app on your phone, when connected to the internet.

Kubu allows you to track activity and receive real-time notifications whenever someone enters and exits your home, so you'll always know when someone is coming and going.

Kubu perimeter notification

How does the perimeter notification work?

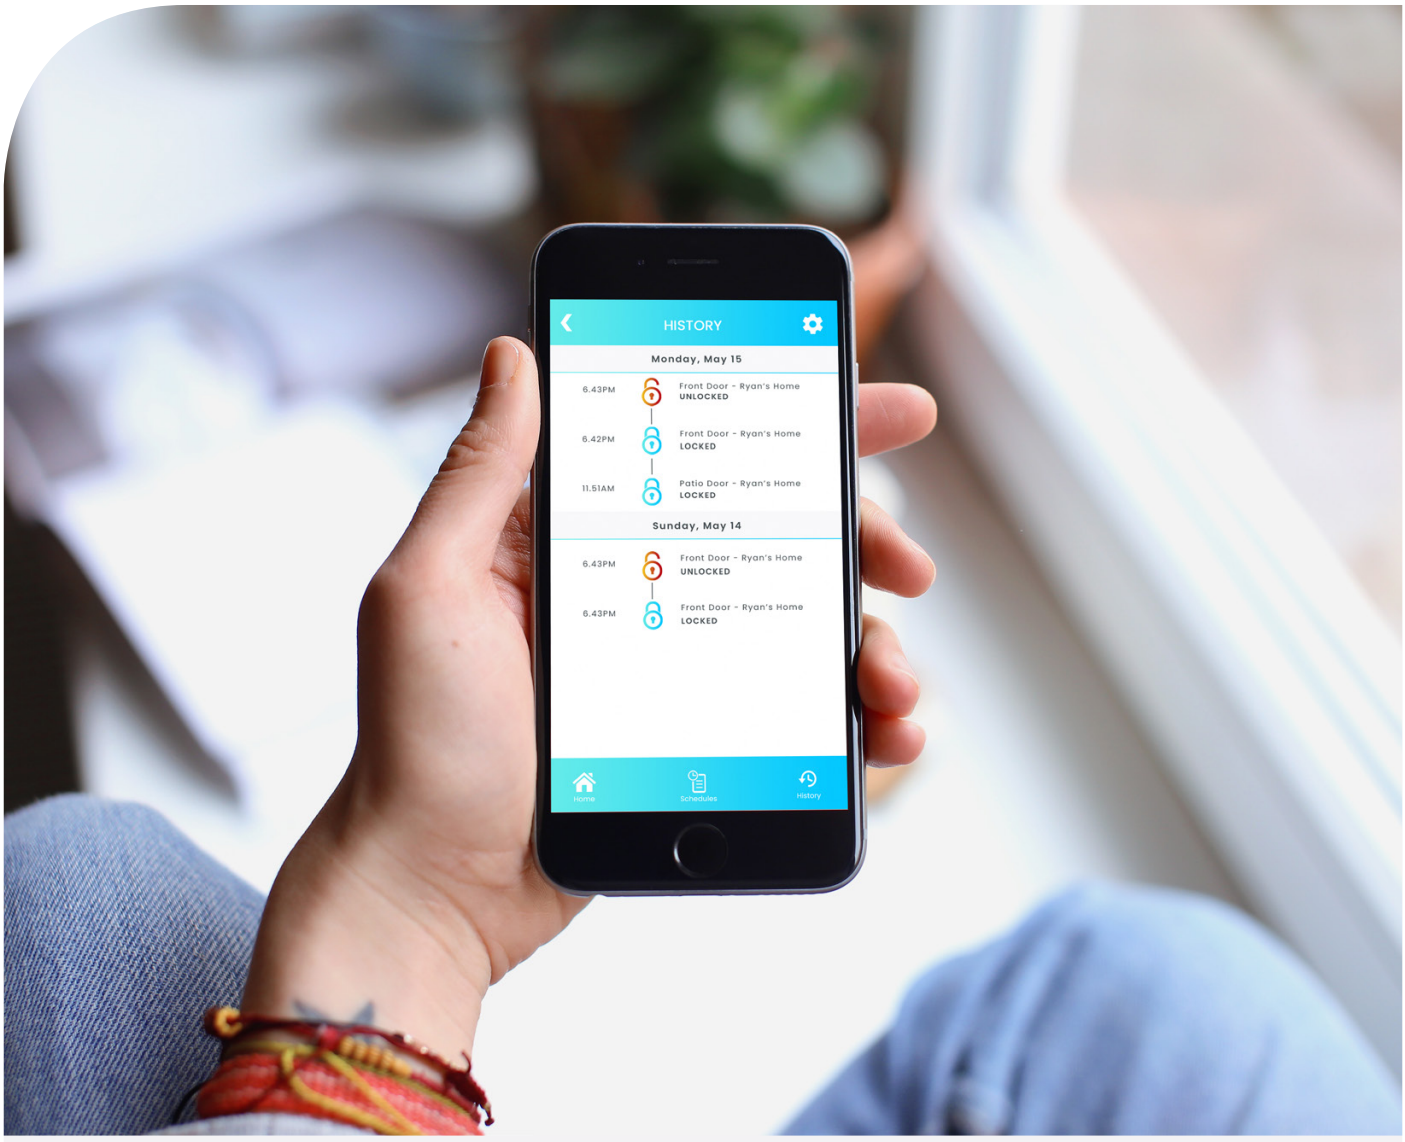

As you walk away from your home and your phone disconnects from the wi-fi, Kubu will send you a notification if your doors are unlocked.

Whether you're rushing out of the house to work or taking the kids to school, Kubu will prevent you from getting too far away from your home with your doors unlocked.

With the perimeter notification reminding you that you've left your door unlocked, you'll simply be able to turn back home and lock your door again.

Never again will you question whether you have left your doors unlocked.

Check back through your history

Kubu allows you to check back through all of your door history. The app gives you a 6 month log of whenever someone has locked or unlocked your door.

If you get broken into, you will be able to identify the time and date, and see if your door was unlocked at the time of the break-in.

Set schedules

The Kubu app allows you to set schedules for any time you want.

Simply pick a day and time when you'd like to be reminded of the status of your door and Kubu will send you a notification to let you know whether it's locked or unlocked.

If you'd like a reminder that your doors are locked at night, or if you want to check the kids have locked the door when they've come home from school; simply set up a schedule in the app and Kubu will send you a notification at that exact time and day.

Share your Door

The Kubu App allows you to share doors with your friends and family, so everyone can benefit from knowing if their doors are secure.

For example, if you want to remind an elderly grandparent to lock their doors at night, simply ask them to share their doors with you. This will then enable you to see the status of their doors.

The '*share your door*' feature allows the whole family to have peace-of-mind. Through the Kubu app, you can share your doors with up to four members.

The Kubu Home Hub

The Kubu Home Hub also acts as a visual indicator, so you can check whether your doors are locked or unlocked, simply by looking at the hub.

When the hub glows blue it indicates all of your doors are locked. If the hub glows orange, at least one of your doors is unlocked. You can then check the Kubu app and find out which door is unlocked.

Keep to the traditional way of locking

Kubu allows you to keep to the traditional way of locking using a key, while still getting smart.

Kubu isn't an automatic lock, meaning if you get locked out of your house, you can still use your key to get back in.

With Kubu, using your key remains the only way that anyone can lock and unlock your doors.

You won't have to worry if you've lost your phone - your door is still secure.

Kubu Equipped Door Lock

The Kubu Equipped Door Lock has been designed and developed to work in perfect combination with the Kubu Home Hub, Door Module and App.

You have the choice if you'd like to upgrade and make your door smart, and it's so simple, you can even fit Kubu yourself!

Why is the Kubu Equipped Door Lock so secure? It delivers the UK's largest hooks and centre dead bolt at 25mm, which makes for greater compression and security on a closed door. The Kubu Equipped Door Lock easily passes PAS 24 for security and is Secured By Design accredited.

The Kubu Equipped Door Lock comes with a 10 year security guarantee and a 10 year mechanical warranty. This means, if you get broken into due to a lock component failure, we'll refund you up to £1,000 on your home insurance excess. Activate your security guarantee online at:

www.kubu-home.com

Amazon Alexa Integrated

Kubu is not just a stand alone smart device, it integrates seamlessly into the home by communicating with your Amazon Alexa. You can easily add the Kubu skill to your Amazon Alexa account and be sure you are secure by simply asking a whole host of questions;

"Alexa, ask Kubu if my doors are unlocked."

"Alexa, ask Kubu for the status of my front door."

"Alexa, ask Kubu when Front Door was last unlocked."

Your Life with Kubu

Your home security is incredibly important. We all lead busy lives where it's easy to forget simple every day actions like locking your doors.

Kubu is a smart and simple solution that will give you and your family guaranteed peace-of-mind.
