

TC-8800 Size 2

Concealed Overhead Transom Closer

PRODUCT INFORMATION

The Axim TC-8800 universal concealed closer is a hidden commercial closing solution held integrally in the door leaf and transom. This means that the door requires no external hardware to create an uncluttered and secure solution. Choose from a variety of door control options to achieve the desired level of functionality such as no-hold opening for low-traffic areas or 90° hold-open for high traffic installations. The TC range is fully adjustable vertically and laterally so it's easy to ensure smooth operation and perfect closing.

- Includes body unit and fixings – 70mm bracket size 2
- Suitable for single and double action doors
- 10mm and 15mm extended spindle models
- 2 valves for closing and latching speed adjustment
- Pre-set cushion back-check
- No hold-open or mechanical hold-open at 90° in stock (hold-open 105° available by special order)
- Suitable for door widths 751mm to 950mm
- Maximum door leaf weight 100Kg
- Standard & Anti finger trap package options are available
- Dummy unit available
- Conforms to EN 1154
- 30-month manufacturers guarantee
