

Yale Panic Bars

- A concealed panic bar kit comprising of panic bar and multi-point lock
- Panic bar comes with black covers and a green cross bar
- Door bolt supplied as standard is part number PAD17200SS (single door kit only) see page 162 for full specification
- Panic bar system will work using standard keeps and packers compatible with Lockmaster door bolts
- Concealed panic bars give better compression and higher security than the standard face fixed panic bars
- Outside access kit for the Yale concealed panic bar allows entry via a key once fitted
- Outside access is key-retaining - once unlocked, the key can't be removed until the door is locked
- 10 year guarantee
